

SUPPORT IS THE FOUNDATION

2014 ANNUAL REPORT

DEAR FRIENDS IN THE FIGHT AGAINST CANCER,

It is with a true sense of humility and appreciation that we share with you our 2014 annual report. This year's theme, Support Is the Foundation, is at the core of why the Illinois CancerCare Foundation exists. Support IS the foundation for our patients as they journey through a cancer diagnosis, treatment and recovery.

The physicians and staff at Illinois CancerCare are committed to supporting patients and their families every step of the way—by offering outstanding patient care and nationally recognized clinical research. This commitment is strengthened by Foundation-supported grants and programs that provide additional opportunities for cutting-edge treatments.

The hope and compassion we're able to share with those we serve wouldn't be possible without the philanthropic support of so many caring friends.

The stories outlined on the following pages demonstrate the important role family and friend support networks play in every patient's fight against cancer. Through these stories of strength and triumph, you'll learn how our patients are blanketed with love and support by those closest to them—and how Foundation grants play a key role in making a difference in their lives.

We thank you for your generosity. You provide the philanthropic support so greatly needed in the fight against cancer. Your gifts help fund cancer research necessary in seeking promising new treatments, and

even cures, for many types of cancers—as well as education and assistance programs so vital to supporting patients and their loved ones during this difficult journey. On behalf of our Board of Directors, Advisors, Young Leaders and Volunteers, thank you for giving so generously!

With sincere appreciation,

Greg Gerstner, M.D.
Board President

Tonda Thompson
Executive Director

We also want to thank Janet Varnes, our former Executive Director, for her leadership, passion and commitment to the Illinois CancerCare Foundation and its mission of service and research to cancer patients and their families.

RANKINGS

TOP 3 IN THE NATION

Academic and Community Cancer Research United ranks Illinois CancerCare as one of the top three enrolling community sites for clinical research.

#2 IN CLINICAL TRIAL ENROLLMENT

As a member of the Heartland Cancer Research NCORP (see page 7), Illinois CancerCare ranks second in overall accrual of patients into clinical studies, according to the Alliance for Clinical Trials in Oncology—ahead of such noted names in cancer research as Dana-Farber, Ohio State, University of Chicago, Mayo Clinic and Southeast Cancer Consortium.

FAMILY IS EVERYONE WHO CARES ABOUT ME

At 75, Roger Nuhn of Glasford is a relative newlywed. When he and Bonnie married five years ago, he joined a close-knit family—two daughters, five granddaughters and two great-grandsons (and another great-grandchild on the way). They all rallied around him when he started treatment for chronic lymphocytic leukemia in the winter of 2014.

So did his Illinois CancerCare family. Presented with the opportunity to participate in a clinical trial, Roger debated it, then decided, “What have I got to lose?” The answer: Nothing. He’s not only responding well to treatment—which he’s not sure he could have afforded on his own—but he’s also recovered the energy to do the things he loves. “I wouldn’t have been able to do anything without this treatment. Now, I feel like doing stuff again.” That includes plans to head to Florida with Bonnie to escape the coming winter.

ROGER
NUHN

YOUR DOLLARS SUPPORT : Cutting-edge cancer treatments offered in our patients’ hometowns. Through the NCI Community Oncology Research Program (NCORP), Illinois CancerCare shares in \$2.5 million of annual funding for National Cancer Institute clinical trials. Patient costs for trials exceed that amount, however, resulting in a significant budget shortfall. The Foundation fills that gap—committing up to \$400,000 per year for the next four years to help ensure local patients receive the quality care they deserve, close to home.

DAN
JACOBS

LAUGHTER IS MY BEST MEDICINE

How would you expect a retired fighter pilot to battle lung cancer? Probably not by donning tie-dyed T-shirts and knitting stocking caps for his care team—but that's the approach Dan Jacobs of Galesburg took. "People are going to look when you lose your hair, so I might as well make them laugh."

It hasn't all been laughter for Dan, his wife Jean and their son Cory, but after undergoing several rounds of chemotherapy, Dan's tumor has shrunk and he's entered a maintenance program as part of a clinical trial. "It's the best way to learn—to give back and help the greater good. I know someone else did it for me, and my dad didn't have this opportunity when he faced cancer 30 years ago."

ADVANCING TREATMENT IN CENTRAL ILLINOIS

Despite funding challenges, Illinois CancerCare continues to increase both the amount of clinical trials available and the number of patients enrolled. "It's entirely because of the support from the Foundation and our donors that we can make this happen," says Dr. Madhuri Bajaj, Physician Director, Research (photo, right).

In 2014, Illinois CancerCare joined the NCI Community Oncology Research Program (NCORP), which replaced the Community Clinical Oncology

Program (CCOP). Under this new arrangement, patients can continue taking part in NCI-funded clinical trials at all 12 Illinois CancerCare locations. At select clinics, they also can participate in industry-sponsored trials, which allow access to drugs before FDA approval.

Another cutting-edge option is targeted therapy. After eligible patients submit a tumor sample to be analyzed for genetic markers, treatment can be targeted for specific genetic mutations. "Our patients can have top-notch genomic testing conducted and interpreted locally without traveling," says Dr. Jane Liu, NCORP Principal Investigator (photo, left).

THEY WALK A MILE IN MY SHOES

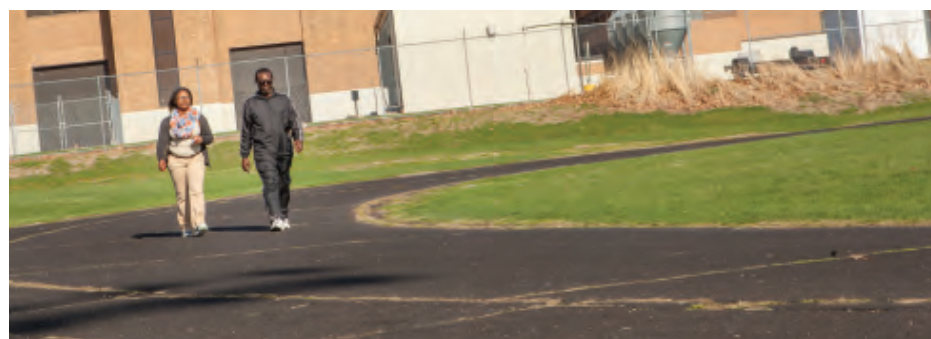

LEAVING NO STONE UNTURNED

"A second set of eyes looking at your treatment." That's how Kacie Tilkner describes her role as a patient navigator, a position funded through Foundation support of NCORP. She regularly screens both new and existing patients to see if they qualify for clinical trials, then reviews those opportunities with the patients' physicians. When there is a match, Kacie walks patients through the trial's requirements, answers questions and manages enrollment. "Our patients get more attention because we're always looking for a good clinical trial fit."

When he hit 237 pounds and found himself out of breath after climbing the stairs, Calvin Pettitt of Peoria decided it was time to take action. He bought some workout clothes and shoes, then started walking regularly on the track next to Bradley University's Shea Stadium. The weight started dropping fast—too fast. It was kidney cancer. "My grandfather and my mom both died of cancer. I thought it was a death sentence."

With God, his extended family and the team at Illinois CancerCare by his side, Calvin proved it's not. He had his kidney removed, joined a clinical trial and now feels good enough to start taking laps around the track once more. "I prayed a lot. I told God I just wanted to see my children and grandchildren progress a bit more before I leave this earth."

CALVIN
PETTITT

YOUR DOLLARS SUPPORT : Studies and therapies that help patients deal with the side effects of cancer treatment. Balance problems caused by chemo-induced neuropathy can lead to falls, injuries and reduced quality of life. In 2014, the Foundation awarded a grant of \$37,982 to the Institute of Physical Medicine and Rehabilitation (IPMR) to study the effects of taxane chemotherapy on balance in breast cancer patients. We also committed \$20,000 for lymphedema treatment and compression therapy, which help patients deal with tissue swelling and fluid retention caused when lymph nodes are removed.

THE HEALING STARTED IN MY GARAGE

Like a lot of patients undergoing chemotherapy, Vickie Brewer of Morton worried about losing her hair. So her friends at work threw her a hat party, and her daughter bought her a beautiful wig. Then, her extended family—husband, daughters, parents, brothers and sisters-in-law—threw one of their spur-of-the-moment “garage parties” to shave Vickie’s head. “It lightened things up, and that really helped. I made up my mind I’m not going to give in to breast cancer.”

After her diagnosis in 2014, Vickie had a lumpectomy and then began chemotherapy. That resulted in a side effect called neuropathy, a type of nerve damage that can cause numbness, tingling, pain and muscle weakness. When her physician asked if she wanted to participate in a clinical trial for a new neuropathy drug, Vickie didn’t hesitate. “I want to be part of proving that more drugs can work for more people.”

VICKIE
BREWER

NEW BEGINNINGS CARRY ME THROUGH

A fall wedding, a new baby girl and a home on the family farm—Skyler Krans of Bradford has all the motivation he needs to beat the gallbladder cancer he's been battling since 2012. Joining the fight are his parents, Dan and Dianne, who travel with him to every treatment, and his fiancée, Chelsea, who met him after his diagnosis. "I told her about what was happening to me, and she still wanted to be with me. I asked her to marry me this Christmas." (Chelsea and Skyler welcomed baby Aria in April 2015.)

Skyler's care team at Illinois CancerCare has been by his side, too, helping him match the right treatment to his diagnosis. His physician encouraged him to submit a piece of his tumor for genetic testing, which resulted in a 57-page report detailing his various tumor markers. That information was then aligned with available clinical trials. "It's all about targeted therapy. If you're going to beat cancer, you need to know what you're going after."

SKYLER
KRANS

YOUR DOLLARS SUPPORT :

Molecular tumor sequencing for patients who may be candidates for targeted cancer therapies. In 2014, the Foundation committed \$50,000 to help patients in financial need participate in genetic screening programs, so they and their families can better understand their risks and make informed decisions about the future.

STACEY
LUX

FAITH IS MY COMPASS IN THE FIGHT

As a children's pastor for **Compass Kids**, Stacey Lux talks with children about all kinds of issues. She didn't know cancer would be one of them until she was diagnosed with breast cancer in 2014. Now she dons funny hats and brightly colored wigs as she shares her story with her young congregation—and she says the support the kids give her in return is critical in her treatment.

At Illinois CancerCare's clinic in Normal, where she's undergoing chemotherapy after a double mastectomy, Stacy says, "The nurses are wonderful. I feel pampered. I'm getting over the hump and getting closer to the finish line." And she has faith the nausea-related clinical trial in which she's participating will bring hope to someone in the future. "I have a passion in my heart to use this experience to bring about something good."

YOUR DOLLARS SUPPORT : Assessment tools that help women prevent breast cancer or diagnose it sooner. In 2014, the Foundation awarded a grant of \$57,181 to OSF Breast Center to develop a first-of-its-kind program in our region. Using tablet computers, women answer a series of questions about family history of breast cancer and other risk data for analysis. Those identified as higher risk are referred for assessment, counseling, personalized care plans and possible genetic testing.

“I ALWAYS SAY IT’S LIKE HUGGING ANGELS”

Over the past three years, Jody Scott of Morton has battled cancer in multiple forms, but she’s never let it get her down—not with husband Greg, daughter Devan and cats Owen and Juno surrounding her with love and support. And when times were tough around the holidays, volunteers from the Foundation’s Trust in Hope program made her life a bit easier. “I was just beside myself when they came and brought a full Thanksgiving meal. They touched my soul.”

With recent scans indicating she’s cancer-free, Jody credits family, faith and everyone at Illinois CancerCare with her recovery. “These people are meant to be doing what they’re doing. I love them all. I always say it’s like hugging angels.”

JODY SCOTT

THERE’S NO SUBSTITUTE FOR HOME

Barbara Shelby’s treatment for colon cancer ended seven years ago, but she keeps a shoebox full of memories. Inside are notes, drawings and 12 special cards—one for each of the floral arrangements delivered to the Peoria clinic on her treatment days. Close friends (including Susan Riediger, right) sent them anonymously to buoy her spirits.

Now Foundation donors, Barbara and her husband Bob know firsthand how much patients rely on support from all angles. “When I was in treatment, I would hear other people telling their stories, and I knew they were hurting. When you’re diagnosed with cancer, you’re given a chance to fight. I want to help pass on that chance to others.” The couple also want others to know what a difference the ability to stay close to home during treatment makes. “We have so much to be thankful for, having a resource like this in our community. People need to understand what a treasure we have here.”

BARBARA
SHELBY

YOUR DOLLARS SUPPORT :

Much-needed meals and gifts for families during the holidays. Over the last six years, through our Trust in Hope program, Foundation volunteers have delivered more than 1,000 Thanksgiving meals to patients, plus holiday gifts to more than 160 children and their families. In 2014, we invested \$10,000 in Trust in Hope.

GIVING

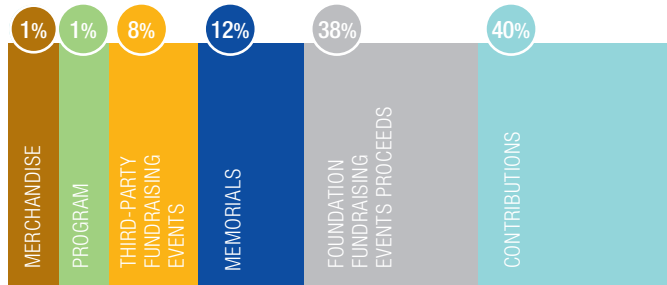

ALLI
TURNER
(IN MEMORY OF HER FATHER)

FOUNDATION-SPONSORED EVENT

GOLFIN’
FOR MY DAD

Alli Turner and her husband Jake moved to Peoria from Chicago to be near her father as he battled brain cancer. During his treatment, Alli decided to give back to the organization that was so supportive of her family. As a member of the Foundation’s Young Leaders Board, she helps plan events like Golfin’ in the Wild and build a legacy of giving for the future. Even her one-year-old daughter Autumn “requested” donations to the Foundation in lieu of gifts for her birthday. “This is one of those rare causes where you can get to know the people you support. It touches your heart.”

CUREAGEOUS

Foundation-Sponsored Event

GOLFIN' in the WILD

Foundation-Sponsored Event

THIRD-PARTY FUNDRAISING EVENT

A RACE BORN TO CELEBRATE A LIFE

RACE COMMITTEE : *left to right*
Mark Hill, John Kahl, Orin Naramore,
Kathy Naramore, Crystal Hill

THERESA TRACY TROT

After his sister succumbed to pancreatic cancer in 2010, Orin Naramore and his family wanted to take an active role in fighting the disease. They raced in the 2011 Purple Stride in Chicago, raising \$4,000 for PanCAN, but wanted to generate and use funds locally. Two years later, the Theresa Tracy Trot was born. A four-mile run and two-mile walk held in East Peoria's Levee District, the event has attracted more than 450 participants in each of its first two years and raised more than \$35,000 for the Foundation. (The 2015 race will be held November 7.)

Just as important, the Theresa Tracy Trot is helping Orin and his friends and family deal with Theresa's loss. "Through this event, I get to celebrate my sister's life on an almost daily basis. It's amazing how much better you're able to cope when you're around people who know what you're going through."

OUR MISSION

The Illinois CancerCare Foundation is committed to funding Research, Education and Awareness of a disease which affects 1 in 3 people. As we fight to find cures for many types of cancers through nationally recognized research initiatives, it is our strong belief that our patients must have available to them every possible weapon in their battle. The Illinois CancerCare Foundation seeks charitable support from throughout central and western Illinois to accomplish these objectives.

LOCATIONS

The Illinois CancerCare Foundation supports patients and their families dealing with a cancer diagnosis through the following central and western Illinois clinic locations—covering a metropolitan service area of more than one million people.

CLINICS

Bloomington/Normal
Canton
Carthage
Eureka
Galesburg
Kewanee
Macomb
Ottawa – Fox River Cancer Center
Pekin
Peoria
Peru – Valley Regional Cancer Center
Princeton
